**Bronze**

## Matching Covered Housing

Not only does the integrated cover housing protect the fabric, but it also ensures the frame is protected from rain, wind, and other harsh weather year round.

## Strength & Durability

Shoulder attachments are extruded aluminum for added strength and durability. Our double aircraft cables also help in preventing your fabric from sagging and create premium fabric tension.

## EASY ADJUSTABLE PITCH

# Adjust to Enjoy the Perfect Amount of Coverage in Your Personal Sanctuary.

### Adjustable Pitch

Easily raise and lower the pitch of your awning to protect yourself against the sun or rain. Enjoy time outside like never before by defending yourself from all kinds of weather. MaxShade's Hand Crank is simple to use and adjusts your pitch to the ideal position.

### Keep Your Awning Looking New

By adjusting the pitch, rainwater and foliage easily slides off your awning. This simple feature keeps your awning fabric from stretching and the colors vibrant.

# Designed for Year-Round Shade and Protection.

## Greater Longevity

MaxShade's integrated protective aluminum housing shelters your fabric from the elements when retracted. Combined with our 10-year warranty, your backyard oasis will be protected for years to come.

## Peace of Mind

With this, you won't have to worry how your awning will hold up when winter or a big storm hits. MaxShade's top-of-the-line quality ensures you enjoy a trouble-free and relaxing time in your new favorite getaway.

## BUILT-IN LED LIGHTS

---

# Enjoy Your Awning Long After the Sun Goes Down.

### Enjoy Your Awning During All Hours

With LED lights, you can enjoy your backyard no matter the time of day. By creating a lively yet peaceful ambience, your house becomes everyone's favorite hangout.

### Adjustable Brightness Via Remote

Easily adjust the brightness of your LED lights by simply using your remote control. Whether it's game night or taking in the stars, you can create the ideal setting.

MOTORIZED AND REMOTE CONTROLLED

# Transform Your Yard With the Click of a Button

## Programmed Remote

Instant coverage and you'll barely lift a finger. With the click of a button, your awning's motor can extend and retract with ease and comfort.

## Manual Override

Your MaxShade awning comes with a 16' power cord that is able to reach most electrical outlets. In case of an electrical power outage, the AC tubular motor also comes with a manual override to ensure functional use.

Cafe Gray

Khaki Beige

Cafe Burgundy

Harbor Gray

Green Stripe

Cafe Navy

### Carrot vs. Radish

Unlike some of our competitors, MaxShade does not use a surface color application. This is when color is only applied to the surface of the yarn, similar to a radish. MaxShade's rich fabric color is achieved by its coloring process. Color is applied throughout the yarn, just like the saturated color of a carrot. This keeps MaxShade fabric vibrant and prevents the color from fading over time.

# Dreaming of an Outdoor Space That is Perfect for Your Family and Friend Gatherings?

## Front Screen

If you need help creating additional shade and blocking the setting sun on an eastern or western exposure, MaxShade's front screens can provide additional shade and privacy. Attaching to the front of your awning, front screens extend down 5 feet and increase the amount of shade covering your outdoor space.

## Side Screen

Similar to the front screen, the side screen provides additional shade for your outdoor space. By extending from the side of your retractable awning, it is able to block the sun's rays on a northern or southern exposure. MaxShade's screens block 90 percent of harmful UV rays.

## Wind Sensor

Worried about sudden winds damaging your awning? Don't be! Our unique wind sensor can detect motion and rolls your awning in for you. Our awnings are designed to handle 25 mph winds, but a wind sensor will give you added peace of mind and security.

# The Best Installation Option For Your Home

**Standard**

**Roof Brackets**

**Bay Brackets**

## Color Matching

MaxShade's retractable awnings are always designed to complement your home's aesthetic. That means no matter what frame color you choose; we have a bracket that will match it.

## Built to Last

Our products are engineered for precision, performance and built to last 30+ years using durable materials; extruded aluminum for added strength, and high-quality double aircraft cables maintain premium fabric tension.

RELAX LIKE NEVER BEFORE

# Comfort Has Never Come With Such Ease.

RELAX WITH MORNING COFFEE

# Incorporate Relaxation into Your Daily Routine for a More Peaceful Life.

MAKE NEW MEMORIES

# Celebrate Every Occasion With a Gathering Space for Friends and Family.
